PROGRAMME

International Publishers Exhibition

Dear Colleagues,

Everybody talks about a new normal. A new way of doing things. A new way of living?

Our objectives haven't changed. Our mission is the same. We strive to bring you the latest trends of foreign language teaching. We deliver the best options for professional development. We set up one of the largest foreign language teaching exhibitions globally. We bring the ELT world together.

What has changed? The venue! We will not see each other at a luxury hotel, we will meet online. We have also improved the online exhibition experience so you can video chat or text with exhibitors. You can browse their latest products and select the best for your students. The "Ilissos Room" will stage innovative presentations and product launches, sessions in the "Agora Room" will be held through Zoom - so you can see and talk to your friends and colleagues - while we offer the chance to Teacher's Associations from all around the globe to collaborate.

It is in our hands to prove once again that the IPE is one of the most attended foreign language teaching events of the year. Log in and invite your peer to do the same on Monday/Tuesday, 30/31 August 2021.

Looking forward to welcoming all of you,

THE MISSED TRICK: READING FOR PLEASURE

Gavin Biggs, ELT Author, Teacher Trainer, HELBLING ENGLISH

It is well known that reading for pleasure enables students to progress quickly across all language skills. It is also well known that most teachers feel they do not have the time or freedom to encourage free reading in class. Reading for pleasure should be a priority in the language classroom, and it is entirely possible to find ways to introduce elements of storytelling and creativity into general activities - even from standard textbooks. However, the flexibility of using specialised graded readers in class means we can help our students develop skills for visual literacy, critical thinking and creativity in the best possible way. In doing this, we are taking the first steps in encouraging learner autonomy and natural enjoyment of language learning. In this talk we will explore practical skills to get the best out of using stories, and attempt to narrow the gap between how students are asked to use language in class and how they will use it in the real world.

In this session we will attempt to answer these questions and introduce *Fiction Express*. *Fiction Express* is an award-winning literacy resource designed to improve all areas of literacy: reading; writing; spelling, punctuation & grammar; and speaking & listening. The resource improves poor reading habits by getting children excited about reading, through the power of a deeply engaging experience of co-creation between pupils and authors.

18 months since the beginning of the pandemic, what will we take with us out of this crisis into the new "not-normal"? What have we learned that can enhance these parts of our classroom:

- What can we bring back from online teaching that can better serve students who might need to be away from the classroom?
- How can we reconsider our relationship with tools that we were initially forced to learn and use them to better improve our pedagogy?
- What are some top 2021 recommendations to be made regarding hardware and software? How can knowing ZOOM better help us?

LEARNING FROM OUR PEERS

Rebecca Place, Media Officer, TESOL-SPAIN

Perhaps what lockdown has taught us all is how much we need each other - our partners in the classroom, our colleagues in the staffroom, fellow members of Teaching Associations and online forums. In this session we will consider how a learner's confidence can be bolstered, and their critical awareness of progress heightened by monitored interaction with their classmates. We will also discuss how, given guidance and positive parameters, peer observations can show even the most experienced teachers how and where to improve. Whether we are teachers or students, online or off, veteran or beginner, turning to our peers will always be a stimulating exercise which should be nurtured.

But materials-light, creative and language learning activities can make class more engaging and encourage students to acquire more language. In this workshop, we'll review a variety of dynamic, interactive activities to empower you and the students to go beyond the textbook and make English learning your own!
