¿QUÉ ESPAÑOL APRENDEN MIS ESTUDIANTES? EL USO REAL DE LA LENGUA EN EL AULA DE ESPAÑOL

Álvaro Sesmilo, Profesor, EDINUMEN

Muchas veces, la lengua que usamos en clase y que aprenden nuestros estudiantes, no corresponde del todo con el uso real que hacen los hablantes de esa lengua en sus comunidades. Eso crea malentendidos, frustraciones y rechazo en el momento en que el estudiante tiene que hacer uso de la lengua que ha aprendido, ya sea de manera receptiva o productiva. Para evitar este contraste, es de vital importancia seleccionar materiales y herramientas adecuados y atractivos, que reflejen el habla de las calles y que permitan a nuestros estudiantes comprender y usar la lengua de una manera efectiva. En este taller vamos a revisar juntos algunas de estas herramientas que nos pueden ayudar a llevar la realidad a nuestras aulas de español.

DISTANCE LEARNING VERSUS TRADITIONAL LEARNING, HOW TO BRIDGE THE GAP!

Chris Kostas, International Marketing Manager, **AHEADBOOKS**
Typically, a couple of years ago, Distance Learning was described as an activity where educators were introducing in classrooms great technological achievements of our daily life, but didn't actually use technology to their benefit in interacting with learners. The idea in most cases was to use technology, if the circumstances required it, as a vessel only to continue teaching with traditional methodology in mind. Today the demands for innovative ways of delivering education has changed and led to new learning and teaching methods versus the traditional way of teaching. Together we will explore the possibilities of Distance Learning and explain the differences between Synchronous and Asynchronous Learning.

CHALLENGES OF A NEW TEACHER

Lediana Kapxhiu, Teacher, ELTA ALBANIA

Being a new teacher means facing so many obstacles, that sometimes seem insurmountable. The main objective of this presentation is to look at the other side of the coin. We must not forget the fact that apart from being a challenge, teaching can really sculpt us professionally, mentally and spiritually. It's not only the student learning, it's also the teacher being assessed. You are faced with a huge responsibility of making their day the best or the worst. In this presentation there will also be a great focus some of the things a teacher must keep in mind in the early years of teaching, considering some studies that analyse these factors in other perspectives. This topic is planned to be a hint for another study that will be made according to a questionnaire during the presentation, considering the opinions of other teachers from around the world.
